Job Title: Manhattan Active WMS Test Lead—Offshore

Location: 100% REMOTE (India anywhere remote) - Nightshift (EST timing)

Experience: 10+ (Long term contract)

Mandatory skills: Manhattan Active WMS and Automation Testing

Job description:

Key Responsibilities:

Test Planning and Strategy: Develop comprehensive test plans and strategies for Manhattan Active WMS implementations and upgrades. Collaborate with project managers and stakeholders to define testing requirements and scope.

Test Execution: Execute functional, integration, and regression testing to validate system performance and reliability. Utilize manual and automated testing techniques to ensure high-quality deliverables.

Defect Management: Identify, document, and track defects using bug tracking tools. Collaborate with development teams to prioritize and resolve issues efficiently.

System Analysis: Analyze system requirements and specifications to design effective test cases. Conduct impact analysis for system changes and enhancements.

Documentation: Create and maintain detailed test documentation, including test cases, test scripts, and test reports. Prepare and present test results to stakeholders.

Collaboration: Work closely with cross-functional teams, including developers, business analysts, and project managers, to ensure seamless project delivery. Participate in meetings to provide updates on testing progress and issues.

Continuous Improvement: Identify opportunities to enhance testing processes and methodologies. Stay updated on industry best practices and emerging technologies related to warehouse management systems.

Qualifications:

Experience: Minimum of 7+ years of experience in testing Manhattan Active WMS or similar warehouse management systems. Proven track record in software testing, particularly in logistics or supply chain environments.

Technical Skills: Strong understanding of Manhattan Active WMS modules (e.g., inventory management, order fulfillment).

Familiarity with SQL for database testing and data validation.

Experience with automation tools and frameworks is a plus.

Certifications: Relevant testing certifications (e.g., ISTQB, CSTE) are preferred.

Soft Skills: Excellent analytical and problem-solving abilities. Strong communication skills to interact effectively with team members and stakeholders. Ability to work in a fast-paced, dynamic environment.

Preferred Qualifications:

Experience with Agile methodologies and tools.

Knowledge of integration points with ERP systems (e.g., SAP, Oracle)

We're Hiring: Senior QA Engineer (Automation Focused) – Urgent Joiners Preferred!

Remote-Friendly | Full-Time or Freelancer | Automation Champion | Growth-Oriented

Are you passionate about quality at scale, love building test automation frameworks from the ground up, and thrive in an environment where craftsmanship meets autonomy?

At tech.at.core, we're looking for a Senior Quality Assurance Engineer who can own the QA function, implement automation strategies, and help us ship seamless, high-quality products with confidence.

This is more than a QA role - it's an opportunity to drive engineering excellence, mentor others, and be the voice of quality from day one.

What You'll Do:

1. Design and own robust test automation frameworks
2. Drive end-to-end QA strategies, ensuring deep coverage and rapid cycles
3. Collaborate closely with developers on root-cause analysis
4. Lead automation, regression, performance, and integration testing
5. Help us build a QA culture grounded in quality, clarity, and ownership

What You Bring:

1. 4+ years in QA with strong automation experience (Selenium/Cypress)
2. Hands-on with Git, CI/CD (GitHub Actions, Jenkins, etc.)
3. Strong problem-solving mindset and the ability to work independently
4. Bonus: API & performance testing experience (Postman, JMeter, k6, etc.)

Why Join tech.at.core?

Experiment Fridays for innovation & learning

Shared by **Job Curator** - Join us on Telegram: <https://t.me/testingexperiencedopenings>

Learning budgets for courses, books, and growth
Remote-first and flexible hours
Clear growth path and mentorship
A human-first, quality-obsessed culture that cares
Urgent joiners preferred – ready to onboard ASAP!
Interested? Send your resume to hr@techatcore.com or swathik@techatcore.com
