We're Hiring | Manual QA Engineer – Capital Markets Domain (5+ Years Experience)

Location: Goregaon East, Mumbai (On-site)

Note: This is a third-party hiring opportunity

Preference: Candidates from Western Mumbai only

Availability: Immediate joiners or candidates who can join within 10 days

We are looking for a skilled Manual QA Engineer with a strong understanding of capital markets to join our client's team in Mumbai. This is a great opportunity for QA professionals who are quality-focused and eager to grow in a fast-paced financial environment.

Key Responsibilities:

- Analyze business requirements, user stories & functional specs to create detailed test cases
- Perform manual testing: Functional, UI/UX, Regression, Integration, Smoke & Sanity
- Validate complete user flows, edge cases, and error scenarios on web & mobile platforms
- Conduct API testing using Postman or Swagger
- Write and execute complex SQL queries for backend/business logic validation
- Log clear, reproducible bugs in JIRA with appropriate details
- Regularly update test cases based on requirement changes and production feedback
- Actively participate in Agile ceremonies – sprint planning, stand-ups, retrospectives
- Collaborate with cross-functional teams to ensure quality and timely releases
- Provide QA status updates and escalate blockers early

Must-Have:

- 5+ years of experience in manual testing
- Strong exposure to capital markets, trading workflows, and financial compliance

Good to Have:

- Knowledge of Appium
- Willingness to work on automation or grow into a hybrid QA role

Shared by **Job Curator** - Join us on Telegram: <https://t.me/testingexperiencedopenings>

Interested or know someone who fits the bill?
