=====

📌 We're Hiring at Publicis Sapient!

Senior Quality Engineer (4–8 Years Experience)

📍 Location: Gurugram/Noida/Bangalore/Hyderabad/Pune/Mumbai

🕒 Experience Required: 4–8 years

Are you passionate about automation, quality, and innovation? We are looking for a Senior Quality Engineer who thrives in fast-paced, agile environments and is ready to build scalable, efficient test automation solutions.

🔍 Must-Have Skills:

- Strong programming skills in Java
- Hands-on with Selenium, Rest Assured, API Testing
- Deep knowledge of BDD frameworks like Cucumber
- Experience in building robust automation frameworks (Page Object Model, CI/CD integrations)
- Solid grasp of OOPs concepts, SQL, and microservices testing

This is more than a QA role – it's an opportunity to own the automation vision, collaborate with high-performing teams, and deliver quality at scale.

💬 If this sounds like you or someone you know, let's connect! Apply today!

Hiring : QA Automation Engineer (Python + Selenium)

📍 Location: Hybrid – 8 days/month onsite (Noida, Gurgaon, Hyderabad, or Bangalore)

💰 Salary : ₹13 LPA (₹1.10 LPM)

🧠 Experience: 5+ Years

🕒 Shift Timing: 11:00 AM – 8:30 PM IST

About the Role

We are looking for a skilled QA Automation Engineer with strong Python and Selenium expertise to join our growing team. This is a hands-on role where you'll be responsible for building and maintaining robust test automation frameworks for web and API testing in a fast-paced Agile environment.

Key Responsibilities:

Design, develop, and maintain automated test scripts using Python.
Build and maintain automation frameworks (Selenium, PyTest, Robot Framework).
Collaborate with development teams to design test strategies aligned with business requirements.
Perform API testing (REST/SOAP) using Postman or Python libraries (e.g., Requests).
Execute regression suites, analyze results, and log defects using JIRA or similar tools.
Contribute to and maintain CI/CD automation pipelines (Jenkins, GitHub Actions).
Continuously enhance test coverage, performance, and reporting.
Document test cases, test plans, and test results clearly and concisely.

Required Skills & Qualifications:

Strong hands-on experience in Python scripting.
Solid knowledge of Selenium WebDriver and frameworks like PyTest.
Practical experience in API testing and automation.
Familiarity with version control (Git) and CI/CD tools (e.g., Jenkins, GitHub Actions).
Good understanding of SDLC, Agile/Scrum workflows, and defect tracking lifecycle.
Excellent analytical, problem-solving, and debugging skills.

Interested ? send your resumes at kashish.delphic@gmail.com

We're Hiring: Quality Analyst | Quicket Solutions | Gurgaon (On-site)

- ◆ Job Title: Quality Analyst
- 📍 Location: Gurgaon
- 🕒 Experience: 2–4 Years
- 💼 Employment Type: Full-Time

🔍 About the Role:

We are looking for a detail-oriented and skilled Automation Test Engineer with 2–4 years of experience to join our QA team. The ideal candidate should have hands-on experience in automation frameworks, scripting, and test execution for web and/or mobile applications. You will play a crucial role in ensuring the quality and reliability of our software products.

🔧 Key Responsibilities:

- Design, develop, and maintain automation test scripts using tools like Selenium, TestNG, Cypress, or similar.
- Perform functional, regression, and integration testing.
- Collaborate closely with developers, business analysts, and other QA team members.
- Identify, record, and track bugs thoroughly.
- Participate in test planning, execution, and reporting.
- Ensure timely delivery of high-quality products by identifying risks and recommending solutions.

✅ Required Skills:

- 2–4 years of hands-on experience in automation testing
- Strong knowledge of Selenium WebDriver and Java/Python/JavaScript
- Experience with test frameworks like TestNG, JUnit, or Cypress
- Good understanding of SDLC, STLC, and Agile methodologies
- Familiarity with defect tracking tools like JIRA
- Experience in writing SQL queries for data validation
- Excellent analytical and debugging skills

★ Nice to Have:

- Experience with API testing tools (Postman, REST Assured)
- Exposure to CI/CD tools like Jenkins, GitLab, or Azure DevOps
- Knowledge of BDD tools like Cucumber

🎓 Qualifications:

Bachelor's/Master's degree in Computer Science, Information Technology, or related field (BCA/MCA/[B.Tech](#) preferred).

Job Title: QA Team Lead – FinTech

Interested can reach out to mugesh.marimuthu@russelltobin.com

Location: Gurugram Experience: 3+ Years

Employment Type: Full-Time

Job Summary:

We are seeking a detail-oriented and experienced QA Team to join our dynamic FinTech team.

The ideal candidate will have 3-4 years of experience in quality assurance.

This role requires hands-on experience in manual and automated testing, leading QA efforts, and ensuring the security and reliability of financial applications.

Key Responsibilities:

- Develop and implement test strategies, test plans, and test cases tailored for FinTech applications.
- Perform and oversee functional, regression, API, UI, security, and performance testing.
- Ensure compliance with financial regulations such as PCI-DSS, GDPR, and ISO 27001.
- Automate test scenarios using tools like Selenium, Appium, JUnit, TestNG, or Cypress.
- Conduct API testing with tools like Postman, RestAssured, or SOAP UI.
- Validate payment transactions, banking workflows, and risk management systems.
- Collaborate with developers, product managers, and business analysts to define quality requirements.
- Monitor test results, track defects in Azure DevOps Board, and ensure timely resolution.
- Research and integrate AI-driven test automation and analytics for better efficiency.
- Enhance test processes, tools, and methodologies to improve efficiency and effectiveness.

Required Skills & Qualifications:

- 3+ years of QA experience.
- Strong knowledge of financial application testing, payment gateways, and digital banking platforms.
- Hands-on experience with automation frameworks like Selenium, TestNG, and Cucumber.
- Expertise in SQL and database testing for financial transactions.
- Experience with cloud-based testing (AWS, Azure, or Google Cloud).
- Strong understanding of security testing and data privacy regulations.
- Ability to work in Agile/Scrum environments and collaborate with cross-functional teams.
- Excellent communication, leadership, and problem-solving skills.
- Proficiency in API testing using tools like Postman, RestAssured, etc.
- Experience with performance testing tools (JMeter, LoadRunner, etc.).

RPA Developer (Blue Prism + OCR)

Job Title: RPA Developer

Location: GURUGRAM

Experience: 5+ Years

Employment Type: Full-time

Work Mode: Onsite

Job Summary:

We are looking for a skilled RPA Developer with hands-on experience in Blue Prism and OCR tools to design, develop, and implement automation solutions for business processes. The ideal candidate will be responsible for creating bots that improve efficiency, reduce errors, and save time across departments.

Must-Have Skills:

Hands-on experience in Blue Prism RPA development.

Proficiency in OCR tools (e.g., Abbyy, Tesseract, Kofax, or similar).

Strong understanding of automation best practices and RPA lifecycle.

Knowledge of object-oriented programming or scripting (e.g., .NET, VB, Python) is a plus.

Familiarity with handling structured and unstructured data.

Key Responsibilities:

Analyze manual, repetitive business processes for automation potential.

Design, develop, test, and deploy automation workflows using Blue Prism.

Integrate OCR tools to extract and process data from scanned documents or images.

Maintain and troubleshoot existing automation bots to ensure smooth operations.

Collaborate with business analysts and process owners to gather and understand automation requirements.

Ensure quality, performance, and security standards are met.

Prepare technical documentation and user guides for deployed bots.

Shared by **Job Curator** - Join us on Telegram: <https://t.me/testingexperiencedopenings>

Good to Have:

Experience integrating RPA with external applications (APIs, databases, ERP systems).

Exposure to other RPA platforms (UiPath, Automation Anywhere) is a plus.

Understanding of SQL, Excel Macros, and data manipulation.

Soft Skills:

Strong problem-solving and analytical thinking.

Good communication and teamwork.

Ability to work independently with minimal supervision.

 **We're Hiring!** 

 **Position:** Associate Product Owner

 **Location:** Gurugram

 **Department:** Digital Transformation (D&IT)

 **Employment Type:** Permanent

Are you passionate about delivering seamless digital solutions in the automotive after-sales domain?

We're looking for a Associate Product Owner for a leading 2W OEM to lead IT solution implementation that enhances customer experience and operational efficiency in the after-sales space.

 **Key Responsibilities:**

Manage and enhance After-Sales modules on Dealer Management Systems (DMS) like Siebel

Handle processes such as warranty management, part-model mapping, complaint handling, and service workflows

Act as a liaison between dealers, IT, and business stakeholders for quick issue resolution

Drive process improvement, enhancement delivery, and participate in UAT & functional testing

Ensure strict adherence to SLA and delivery timelines

 **What We're Looking For:**

3 - 6 years of experience in Product Ownership or IT Project Management in automotive after-sales or related domains

Hands-on experience with Siebel or equivalent DMS platforms

Strong knowledge of stakeholder management, change management, and business requirement gathering

Excellent problem-solving and coordination skills

If you're ready to transform after-sales operations through digital excellence, we'd love to hear from you!

🚀 We're Hiring! Full-Time QA Roles – Join Our Tech Team in Sector 136, Noida 🚀

Are you passionate about quality, user experience, and building products that truly work? If you're ready to level up your QA career in a fast-growing global company, University Living is the place for you!

We're looking for two driven individuals to join our QA team:

1️⃣ QA Executive – 1 to 2 years of experience

2️⃣ QA Analyst – 2 to 3 years of experience

📍 Location: On-site, Sector 136, Noida

What You'll Be Doing:

- ✓ Performing functional testing with a sharp eye for UI/UX
- ✓ Creating clear documentation and test reports
- ✓ Identifying bugs before users do
- ✓ Collaborating with tech, product, and design teams to ensure smooth releases
- ✓ Contributing to a product used by students around the world

What We're Looking For:

- 1) Solid experience in manual QA, UI/UX testing, and test documentation
- 2) Familiarity with bug tracking tools
- 3) Strong analytical and observational skills
- 4) A proactive mindset and ability to work in fast-paced product environments

Bonus if you've got QA certifications or experience with test automation

🌐 About University Living:

We're a global student housing platform helping students find homes in 265+ cities across the UK, USA, Australia, Canada, and beyond — with over 1.75 million beds listed.

🧩 We're Hiring: Business Analyst – (Fresher) – Zero Experience

📍 On-site – Noida Extension, Uttar Pradesh, India

Kelevo Software Pvt Ltd is expanding! We're looking for enthusiastic fresh graduates (MBA / [B.Tech](#) / MCA — 2024–25 pass-outs) to kick-start their careers in business analysis using Zoho CRM/ERP solutions.

🔍 What You'll Do:

- Gather & document business requirements (BRDs, FRDs, workflows, user stories)
- Assist in configuration/customization of Zoho modules: CRM, Creator, People, Books, Inventory, Analytics, Desk
- Automate business workflows using Zoho automation tools
- Create and run test scenarios, track bugs, and validate solutions
- Maintain project documentation throughout the implementation lifecycle
- Collaborate with cross-functional teams & operations
- Be open to domestic and occasional international travel for client workshops and deployments

Shared by **Job Curator** - Join us on Telegram: <https://t.me/testingexperiencedopenings>

Who We're Looking For:

- Fresh graduates (2024–25 pass-outs): MBA / [B.Tech](#) / BCA / MCA (0 years experience)
- Excellent verbal & written communication in English
- Strong analytical thinking and keen attention to detail
- Adaptability, team spirit, and an eagerness to learn

What You'll Gain:

- Hands-on exposure to the complete Zoho product suite in real-world scenarios
- Mentoring from experienced Business Analysts and certified Zoho consultants
- Practical experience in requirement gathering, configuration, testing, and reporting
- Opportunities to earn Zoho certifications and grow professionally
- Potential to progress into functional or technical leadership roles

Compensation & Benefits (Indicative):

Standard 5-day workweek

Support for career development, training, and Zoho certifications

How to Apply:

Send your resume to: hr@kelevosoftware.com

Subject: Application – Business Analyst Zoho (Fresher)

Why You Should Apply:

You're a fresh graduate eager to learn and enter the tech industry.

You have strong communication skills and analytical abilities.

You're open to travel and ready to take on client-facing challenges.

You want to gain exposure to Zoho tools and grow under expert mentorship.

Need encouragement?

Even if you don't tick every box—if you're curious, motivated, and ready to learn—apply! at hr@kelevosoftware.com or contact at +91 92891 97631. This is your chance 📁✨

We're Hiring: Senior QA Engineer

 Location: Noida |  Experience: 4+ Years |  Full-time |  Company: [#RedDoorz](#)

Looking to break bugs before they break the product?

We're on the hunt for a Senior QA Engineer who thinks like a user, breaks things like a hacker, and pushes for quality like a product owner.

If you thrive in high-growth environments, love collaborating across teams, and believe that no bug should escape unnoticed — let's talk.

What You'll Be Doing:

 Define and own manual test strategies for complex product workflows

 Craft test cases with precision and cover edge cases others miss

 Own the defect lifecycle — from discovery to closure

Shared by **Job Curator** - Join us on Telegram: <https://t.me/testingexperiencedopenings>

-  Drive regression and exploratory testing across web & mobile platforms
-  Collaborate closely with Product, Dev, and Design teams to ship quality releases
-  Mentor junior QAs and help shape our quality culture

✅ What You Bring:

4+ years of hands-on experience in Manual Testing
Deep understanding of SDLC, STLC, and agile methodologies
Proficiency with tools like Jira, TestRail, Zephyr or similar
Excellent eye for detail and strong analytical/logical thinking
Solid communication skills — written and verbal
Bonus: Mobile app testing, API testing, or hospitality/SaaS domain exposure

💡 Why Join Us?

-  Real impact — your work will touch thousands of users
-  Competitive salary + performance-linked rewards
-  Career growth in a fast-scaling product company
-  Diverse work culture, supportive team, zero micromangement
-  Access to learning programs & up skilling support

 We're Hiring: ServiceNow QA Engineer 

 Locations: Noida | Bangalore (Remote Work Mode)

 Experience: 4–6 Years

 Employment Type: Full-Time/Contract

Are you passionate about quality assurance and the ServiceNow platform? Do you thrive in a remote-first environment and love collaborating with cross-functional teams? If yes, we'd love to meet you!

 Your Mission

As a ServiceNow QA Engineer, you'll be the guardian of quality across our ServiceNow implementations. You'll work closely with functional consultants and client UAT teams to ensure seamless delivery and robust testing.

 Key Responsibilities

Define test strategy, scenarios, traceability matrix, and success criteria

Coordinate with functional consultants and client UAT teams

Manage defect triage, retesting, and sign-off procedures

Support test automation planning where applicable

 Required Skills

[#ServiceNowQA](#) with 5–8 years of overall QA experience

Strong testing in [#ServiceNowSPM](#) (Strategic Portfolio Management) and

[#EnterpriseArchitect](#) modules

Hands-on with [#FormDesign](#), [#BusinessRules](#), [#FlowDesigner](#), and [#CustomScripts](#)

Experience in [#IntegrationTesting](#) using [#RESTAPI](#) and [#SOAPAPI](#)

Solid understanding of [#ITILProcesses](#) and best practices

Excellent [#AnalyticalSkills](#), [#Troubleshooting](#), and [#Documentation](#)

Strong [#CommunicationSkills](#) – both verbal and written

Must hold a valid [#ServiceNowSystemAdministratorCertification](#)

 Why Join Us?

Remote-first culture with flexible work hours

Work on cutting-edge ServiceNow projects

Collaborative and inclusive team environment

Opportunities for growth and certification support

 Ready to elevate your QA career?

Apply now at hr@flairnetworksystems.com or tag someone who'd be a perfect fit!

 We're Hiring: Accessibility Test Engineer 

Location: Noida (On-Site Only)

Experience Required: 2-6 Years

(IMMEDIATE JOINERS REQUIRED)

At Accessible Minds, we are committed to making the digital world inclusive for everyone. We're looking for passionate and skilled individuals to join our team as Accessibility Test Engineers. If you have what it takes, we'd love to meet you!

What We're Looking For:

-  Experience: 2+ years in Accessibility Testing
-  Knowledge: ADA/Section 508/WCAG 2.0 & 2.1 compliance
-  Skills:

Hands-on experience with Web, Desktop, and Mobile Accessibility Testing
Proficiency with screen readers like JAWS, NVDA, and VoiceOver
Familiarity with assistive technology shortcuts and keystrokes
Capability to create VPAT and Compliance Reports
Knowledge of HTML and Data Table Structure
Strong communication skills in English

Additional Preferences:

- ✓ Certifications: Trusted Tester, IAAP-CPACC (a plus)
- ✓ A "Can-Do" attitude with eagerness to learn

Responsibilities:

Define and execute accessibility test scenarios
Perform regression testing for reported issues
Collaborate with teams to promote accessible design
Provide recommendations for resolving accessibility issues

◆ Apply now and start your journey with us! ◆

Interested applicants with relevant experience who wish to be a part of our growing team can connect with us at

-  We're Hiring: QA Tester
-  Location: Noida
-  Notice Period: Immediate to 30 Days
-  Experience: 2 to 5 Years

What You'll Do:

1. Analyze software specs and create detailed test cases/scripts for manual and automated testing.
2. Perform functional, regression, integration, UAT, performance, and security testing using tools like Selenium with Python, JMeter, or LoadRunner.
3. Log, prioritize, and track defects using tools like JIRA; collaborate with developers for issue resolution.

Shared by **Job Curator** - Join us on Telegram: <https://t.me/testingexperiencedopenings>

4. Develop and maintain automation frameworks; test RESTful APIs for functionality and reliability.
5. Conduct load, stress, penetration, and vulnerability tests; analyze metrics and suggest improvements.
6. Work closely with cross-functional teams, participate in Agile ceremonies, and deliver clear test reports and documentation.

✅ What We're Looking For:

1. 2–5 years of hands-on experience
2. Proven experience in software quality assurance
3. Experience with testing tools (e.g., Selenium with Python, Postman, JIRA).
4. Effective communication and teamwork abilities.
