Job Title: UI Automation Engineer

Location: Mumbai, India

Company: HDFC Bank

Experience: 2+ Years

Department: Quality Assurance / Technology

Role Overview:

We are seeking a UI Automation Engineer who will play a key role in enhancing the quality of our digital platforms. The ideal candidate will have hands-on experience in building UI automation frameworks, excellent scripting skills, and a strong understanding of modern QA practices, preferably within the banking or financial domain.

Key Responsibilities:

- Design, develop, and maintain scalable UI automation frameworks using tools such as Selenium, Cucumber, JBehave, or Katalon.
- Create reusable and maintainable automation scripts using JavaScript, Python, or Groovy.
- Work closely with product managers and developers to understand requirements and ensure comprehensive test coverage.
- Integrate automated test suites into CI/CD pipelines using tools like Jenkins, GitHub, or similar platforms.
- Utilize Generative AI tools to accelerate test script creation and improve coverage (preferred).
- Debug failures, perform root cause analysis, and contribute to continuous improvement in QA processes.
- Maintain documentation related to test cases, test data, and framework enhancements.

Required Skills & Qualifications:

- 2+ years of experience in UI automation testing – Mandatory
- Proven expertise in tools like Selenium, Cucumber, JBehave, or Katalon – Mandatory
- Strong proficiency in JavaScript, Python, or Groovy – Mandatory
- Hands-on experience in integrating tests with CI/CD tools (e.g., Jenkins, GitHub Actions) – Preferred
- Experience in the banking or payments domain – Highly Desirable
- Exposure to AI-driven test automation tools – Nice to Have
- Strong analytical, debugging, and communication skills

Interested candidates can apply now and share you CV's at avneet.kaur@pineqlab.com or directly at 9934186937.
