Hiring: Performance Test Engineer – 3 to 6+ Years (JMeter Expert)

Locations: Bangalore, Chennai, Pune, Hyderabad

Experience Required: 3–6+ years in Performance Testing, with 6+ years preferred

CTC: Up to ₹15 LPA

Immediate Joiners Only — Maximum 15-day notice period

Openings: 8

What You'll Do (Role Highlights):

Design, write & execute performance test plans using Apache JMeter,

covering scripting, parameterization, correlation & assertions.

Test Web, Mobile apps, Microservices & backend systems — working with HTTP/S, REST/SOAP, JSON/XML, WebSockets.

Execute distributed load tests in JMeter non-GUI mode; assess system behavior under real-world loads (throughput, latency, concurrency).

Analyze logs, metrics & performance dashboards to identify bottlenecks & recommend improvements.

Use performance monitoring tools such as AppDynamics, New Relic, Dynatrace, Grafana, Prometheus.

Work in Linux/Unix environments for test execution and monitoring.

What You Bring:

Mandatory: Deep hands-on experience with JMeter + strong SQL knowledge.

Familiarity with cloud-based load testing on AWS, Azure or GCP.

Backend systems experience with Kafka, RabbitMQ, or similar messaging systems.

Programming or scripting skills in Java, Python, or Groovy to build custom performance utilities.

Experience with other tools—Gatling, Locust, LoadRunner is a plus.

Excellent analytical ability and communication skills.

Interview Process:

Round 1: Core Technical (JMeter + SQL)

Round 2: Managerial Round

Why Join Us?

Be part of challenging, high-impact performance engineering projects.

Learn & collaborate with teams across QA, DevOps, and development.

Opportunity to work across multiple key metro hubs in India.

We value swift onboarding—ideal for candidates ready to join within 2 weeks.

Interested?

DM me your resume, current CTC, expected CTC, and notice period—or tag your friends who fit the bill!

Now Hiring: Quality Assurance Manager | Center of Excellence  
Location:  
Bangalore – Expertise in Finance & Accounting (F&A)  
Pune – Expertise in Pensions (US Healthcare experience is a strong advantage)  
CTC: Up to ₹26 LPA (Up to ₹30 LPA for exceptional Sr. Manager candidates)  
Work Mode: Onsite  
Experience: 15+ years total, with 6–8+ years relevant domain experience  
Certification: Six Sigma Black Belt (mandatory); Lean, Master Black Belt, or Design Thinking (preferred)

About the Role:

A global Center of Excellence is looking for experienced Quality Assurance Managers to lead the Quality Assurance vertical, focusing on building a culture of excellence, governance, and continuous improvement across shared services.

In this leadership role, you'll manage large teams, drive end-to-end quality initiatives, lead transformation projects, and collaborate with global stakeholders to deliver measurable business outcomes.

Key Responsibilities:

Define QA strategies and maintain the highest level of quality standards  
Identify high-impact process improvement opportunities and drive execution  
Lead initiatives on training, testing, certification, and productivity analytics  
Analyze trends and operational metrics; report actionable insights to leadership  
Foster a data-driven decision-making culture  
Conduct process benchmarking and ensure compliance with best practices  
Oversee large teams (80–100+ members) and ensure high performance and collaboration

What You Bring:

Extensive experience in domains like Insurance, Pensions, F&A, or US Healthcare  
Proven expertise in quality frameworks, SOP documentation, and process transformation  
Strong analytical skills, stakeholder management, and problem-solving abilities  
Familiarity with automation, AI, ML is a plus

Project management experience with an innovation-first mindset

Preferred Competencies:

Strategic planning and quality deployment

Stakeholder engagement and transformation leadership

Team capability building and continual learning

Process focus and improvement mindset

Python-Powered QA? We're Looking for You!

Hiring: Senior Test Automation Engineer (Telecom Domain)

Location: Pune / Bangalore | Hybrid Work Mode

Are you a Python automation wizard from the telecom industry? Ready to take on complex systems, lead agile squads, and build high-impact solutions? We want to hear from you!

Your Role at a Glance:

Lead a QA squad focused on end-to-end automation delivery

Build robust API test suites using Python, Robot Framework,

JMeter, and Selenium

Leverage tools like Swagger/OpenAPI, Docker, Git, and cloud platforms (AWS)

Apply your telecom expertise in testing network-heavy systems

(Ethernet, IP, Routing)

Own the QA lifecycle – performance, load, and functional testing

Mentor junior testers and champion automation best practices

What You Must Have:

7+ years in QA automation

Expert-level proficiency in Python for RESTful API testing

Strong experience in telecom or network-based product environments

Hands-on with CI/CD tools and cloud integration

Tools like Jira, Bugzilla, Git, Docker – second nature

Leadership experience in agile teams

Bonus If You Bring:

ISTQB certification

Experience with BDD/TDD

We are Hiring

Job Title: SAP Test Automation Engineer (Worksoft Certify)

Experience: 6+ Years (Minimum 5 years in Worksoft Certify)

Budget: Up to ₹18 LPA

Work Mode: Hybrid (Minimum 3 days/week Work from Office – subject to client requirements)

Job Description:

We are seeking a highly skilled SAP Test Automation Engineer with a strong background in Worksoft Certify to join our dynamic team. The ideal candidate should have deep expertise in test automation for SAP

environments, excellent communication skills, and the ability to work collaboratively in a client-facing role.

#### Key Responsibilities:

Design, develop, and execute automated test cases using Worksoft Certify.  
Perform end-to-end testing of SAP applications including SAP ECC and/or SAP S/4HANA environments.  
Collaborate with cross-functional teams including developers, functional consultants, and QA to ensure high-quality delivery.  
Maintain and enhance existing test automation scripts as per project requirements.  
Document test cases, test results, and defect reports using HP ALM or Micro Focus Octane.  
Work closely with clients to understand business processes and ensure test coverage aligns with functional needs.

#### Required Skills & Qualifications:

Minimum 6 years of experience in test automation for SAP applications.  
At least 5 years of hands-on experience with Worksoft Certify automation tool.  
Strong understanding and working knowledge of SAP ECC and/or SAP S/4HANA.  
Proficiency with HP ALM or Octane for test and defect management.  
Excellent verbal and written communication skills.  
Ability to work independently and in a collaborative environment with global teams.

#### Mandatory Requirements:

Valid PAN Card (Selfie not required).  
Must be open to 3 days Work from Office per week (subject to client needs).

#### Work Location Options:

Bangalore – UB City or Kodathi (90% priority)  
Hyderabad – Sattva or Gopanapally (90% priority)  
Pune – Candidates with 100% availability can be considered.

#### Apply Now:

If you are passionate about SAP testing and automation and meet the criteria above, we invite you to be part of our high-performing QA team.

The interested candidates can share their resumes with the subject line of Vandana - Worksoft Automation to [hr@novuminsightmanagement.com](mailto:hr@novuminsightmanagement.com) or [Jatin@novuminsightmanagement.com](mailto:Jatin@novuminsightmanagement.com)

Hiring Now | Manual Tester – Healthcare Technology Project  
Location: Pune / Hybrid  
Employment Type: Full-Time | Long-Term Engagement  
Powered by: JoulesToWatts Business Solutions Pvt. Ltd.  
At JoulesToWatts (J2W), we believe that quality is life-critical —

especially in healthcare. We're proud to be the talent and delivery partner for a mission-driven healthcare product engineering project, and we're looking for skilled Manual Testers to help us ensure nothing slips through the cracks.

This isn't just another testing job — it's your chance to contribute to a system that impacts patient safety, clinical precision, and medical outcomes globally.

**Role: Manual Tester (Healthcare Domain)**

In this role, you'll be:

Writing structured test scenarios and test cases that align with regulated healthcare systems

Performing manual testing across core and critical modules

Managing the defect lifecycle meticulously to ensure product stability

Collaborating with engineering and QA leads to align test coverage

Explaining project structure, test logic, and business impact effectively to teams

**What You Bring**

5–9 years of manual testing experience, preferably in regulated domains

Solid knowledge of testing concepts, SDLC/STLC, and defect lifecycle

Hands-on experience with tools like JIRA, ALM, or similar

Excellent communication and documentation skills

Bonus: Familiarity with healthcare/medical device testing, basic SQL, or ISTQB certification

**Why This Project Matters**

This role supports a global healthcare initiative designed to improve:  
Clinical workflows

Patient safety

Health data reliability

Your testing efforts will directly impact how clinicians and hospitals deliver care across regions.

**Why J2W? | JoulesToWatts Advantage**

At JoulesToWatts, we're not just matching skills to jobs — we're building careers that drive global innovation.

India's leading GCC consulting and transformation firm

Trusted by 250+ Fortune 500 GCCs

Recognized as a Great Place to Work – 2024

5,300+ professionals deployed globally

Supporting 8–10 Brownfield & Greenfield GCCs every quarter

AI-first talent platforms for accelerated workforce transformation

And now, we're scaling our healthcare consulting vertical with critical hires like you.

Know someone who fits? Or ready to take the leap yourself?

Email your profile to [ankitha.g@joulestowatts.co](mailto:ankitha.g@joulestowatts.co) or DM me here.
