#WeAreHiring #QAEngineer (Manual & Automation Testing with AI Prompting)

Location: Hyderabad Experience: 0 to 5 Years

Job Overview:

We are looking for passionate and detail-oriented QA Engineers (Manual & Automation) who are eager to work on modern testing workflows. Candidates should be able to write and execute test cases manually, automate tests, and leverage AI tools and prompting techniques to assist with writing test scripts and analyzing test coverage.

Key Responsibilities:

Analyze requirements and create comprehensive test plans and test cases
Perform manual testing for web and mobile applications
Write and maintain automation scripts using tools like Selenium, Appium, or similar
Use AI tools (e.g., ChatGPT, GitHub Copilot, etc.) to generate test cases, test data, and test scripts via effective prompting
Identify bugs and work closely with the development team for resolutions
Report, track, and manage bugs using tools like JIRA, Bugzilla, or similar

Must-Have Skills:

Understanding of SDLC and STLC

Manual testing skills: Test case design, defect tracking

Basic coding knowledge (Java, Python, or JavaScript preferred)

Exposure to automation tools (Selenium, Appium, TestNG, etc.)

Familiarity with using AI tools to assist with test case creation and code generation

Good analytical and communication skills

Collaborate with developers and product teams for continuous testing and CI/CD

Good to Have:

Experience with Postman or API testing
Understanding of databases (SQL/MongoDB)
Knowledge of CI/CD pipelines and version control (Git)
Basic understanding of AI/ML concepts (not mandatory)

Who Can Apply:

Freshers with strong fundamentals and interest in Al-assisted testing Experienced testers looking to evolve with Al-driven workflows Self-learners and prompt engineers are highly encouraged

To apply, send your resume to hr-admin@cyepro.com or message us directly.

Hiring #Cypress #Typescript #Java # C# #sql #Hyderabad #chennai #workfromoffice #pallavaram

Job Title: Test Engineer Experience: 4+ Years

Location: Chennai(Pallavaram) or Hyderabad-WFO

Employment Type: Full-Time

Job Summary:

We are looking for a skilled and experienced Test Engineer with 4+ years of hands-on experience in automation testing. The ideal candidate will have strong expertise in Cypress, TypeScript, Object-Oriented Programming (OOP), SQL, and proficiency in programming languages like C# or Java. You will be a key contributor in building reliable, scalable, and maintainable automation frameworks and ensuring high product quality.

Key Responsibilities:

Design, develop, and execute automated test scripts using Cypress.

Leverage TypeScript and apply OOP principles to create efficient test solutions.

Write and optimize SQL queries for data validation and backend testing.

Collaborate with cross-functional teams to understand product requirements and test coverage needs.

Perform defect analysis, root cause identification, and work with developers to resolve issues.

Enhance automation frameworks and contribute to CI/CD integration.

Review peer test cases and support junior QA members when required.

Required Skills:

4+ years of experience in software testing with a focus on automation.

Hands-on experience with Cypress and TypeScript.

Strong understanding of OOP concepts.

Proficiency in SQL for querying and validating data.

Experience in at least one programming language – C# or Java.

Familiarity with source control (e.g., Git) and CI/CD pipelines.

Strong analytical, debugging, and communication skills.

Nice to Have:

API testing experience (Postman, REST Assured, etc.).

Experience working in Agile/Scrum teams.

Knowledge of performance testing tools and basic scripting.

Job Title: Power BI Report Tester

Location: Hyderabad

Job Summary:

We are seeking a detail-oriented and analytical Power BI Report Tester to ensure the accuracy, performance, and quality of Power BI reports and dashboards. The ideal candidate will have experience in software testing, a good understanding of business intelligence concepts, and a working knowledge of data validation and visualization best practices.

Key Responsibilities:

Review report requirements and technical specifications to understand testing needs.

Validate data accuracy, consistency, and completeness in Power BI reports and dashboards. Perform manual and automated testing to ensure correct data transformations and visuals.

Create and execute test plans, test cases, and test scripts for Power BI reports.

Identify, document, and track defects and inconsistencies in Power BI reports.

Collaborate with BI Developers, Data Engineers, and Business Analysts to resolve issues.

Perform regression testing on reports after fixes or updates are deployed.

Ensure compliance with data privacy, security, and reporting standards.

Generate QA documentation and contribute to best practice development for report testing.

Requirements:

Bachelor's degree in Computer Science, Information Systems, or related field.

Proven experience testing BI tools, preferably Microsoft Power BI.

Strong knowledge of SQL and ability to query databases for data validation.

Understanding of data warehousing concepts and ETL processes.

Familiarity with DAX, Power Query (M language), and report performance tuning. Experience with QA tools (e.g., JIRA, TestRail) and version control systems (e.g., Git). Strong analytical, problem-solving, and communication skills.

Attention to detail and ability to work independently or in a team.

Preferred Qualifications:

Experience with test automation frameworks for BI reports.

Knowledge of Agile/Scrum methodologies.

Microsoft Certified: Power BI Data Analyst Associate is a plus.

Familiarity with cloud data platforms (Azure, AWS, etc.).

Role: Senior Automation QA

Location: Hyderabad (Hybrid: 3 days in-office, 2 days work from home)

Experience: 4-10 years in Automation Testing

☆ What you'll do:

- Develop and implement automated testing using Selenium, UFT/QTP, and API testing tools (RESTful APIs, SOAP UI, Postman)
- Build and enhance automation frameworks and scripts with VBScript, C#, Java, Cucumber, Gherkins
- Integrate automation scripts with CI/CD pipelines using Jenkins, TeamCity
- Write complex SQL queries for data mining and migration in automation scripts
- Mentor manual QA teams to leverage automation effectively
- Collaborate cross-functionally to ensure software quality across the full SDLC
- Analyze test metrics and ROI to drive continuous process improvements
- Engage with senior stakeholders to define automation requirements and progress

What we're looking for:

- Bachelor's degree in IT/Computer Science (mandatory)

- ISTQB or equivalent certification preferred
- Strong expertise in automation framework development and maintenance
- Excellent communication and customer engagement skills
- Strategic mindset with a passion for learning and growth
- Willingness to travel occasionally and work across time zones

■ We're Hiring: Team Lead – Oracle Financials | Testing & Automation

TLocation: Hyderabad, India

Experience: 8+ Years Total | 5+ Years Relevant

Contract Duration: 1 Year (with intent to convert to permanent post successful completion)

© Compensation: Competitive daily rate aligned with market standards for senior test leads

Are you a seasoned QA/Automation Lead with deep expertise in Oracle Financials? We're seeking a proactive and technically sound professional to head testing and automation efforts in a critical enterprise finance environment — with a clear path to a permanent role after the initial contract period.

→ What You'll Be Doing

Lead and manage a testing team for Oracle Financials modules

Drive automation strategy and implement scalable test frameworks

Define, execute, and track test plans, scripts, and defect resolution

Collaborate with business and tech teams to validate end-to-end workflows

Ensure timely delivery, quality benchmarks, and reporting across project lifecycle

Mentor junior team members and coordinate with cross-functional stakeholders

Key Skills Required

Team leadership experience in a QA or automation role Hands-on with Oracle Financials testing (functional and automation) Experience with test automation tools and scripting Strong communication, analytical, and coordination skills

Why This Role?

Work on a high-impact finance transformation initiative Long-term opportunity with a clear path to permanent placement Engage with enterprise-level Oracle Financials platforms Receive a competitive daily rate in line with market expectations

Collaborate with skilled teams and gain domain-rich experience

Interested? Apply now [chennai@brraysoft.com]or tag someone in your network who would be a great fit!

Exciting Opportunity Alert!

==============

We're Hiring: Penetration Tester – Offensive Security (4–10 Years)

📍 Location: Hyderabad | 💼 Job Type: Full-Time | 🥯 Experience: 4–10 Years

Mode: Work from Office | ♦ Immediate Joiners Preferred

Role Summary:

Are you passionate about breaking things ethically to make them stronger? We're on the lookout for a hands-on Mid-Level Penetration Tester to join our Offensive Security Team. You'll be testing real-world applications, APIs, mobile apps, wireless networks, infrastructure, and more—using advanced manual techniques and creative exploit chaining to uncover hidden vulnerabilities.

If you're a problem-solver with a hacker mindset, this is your stage.

X Key Responsibilities:

✓ Conduct manual penetration testing of:

Web apps (OWASP Top 10, business logic flaws)

APIs (REST/SOAP)

Mobile apps (Android/iOS)

Wireless networks (WPA2, rogue APs)

Network infrastructure

Thick client applications

- Simulate advanced attack scenarios using custom scripts and payloads
- ☑ Deliver detailed findings with PoCs, risk ratings & actionable remediation
- Support threat modeling & scoping with stakeholders
- Collaborate with devs & IT teams during remediation & retesting
- Continuously research new attack vectors & contribute to internal playbooks
- **What You'll Bring:**
- ✓ Strong manual testing skills & hands-on experience in offensive security
- ✓ Deep understanding of HTML, JavaScript, HTTP/S, sessions, cookies
- ✓ Familiar with OWASP Top 10, MITRE ATT&CK, CWE/SANS 25
- ✓ Proficient with tools: Burp Suite Pro, ZAP, Postman, Wireshark, Nmap
- ✓ Mobile testing tools: MobSF, Frida, JADX
- ✓ Scripting in Python, Bash, PowerShell
- ✓ Creative vulnerability chaining and logic flaw exploitation
- ✓ Knowledge of OAuth2, JWT, SSO, and other auth mechanisms
- Why Join Us?

Be part of an elite offensive security team

Work on high-impact, real-world security assessments

Collaborate with passionate security minds and top engineers

Stay ahead of evolving threats in a dynamic learning environment

Competitive pay, continuous skill growth, and challenging engagements

Ready to hack (legally)?

Send your resume to santhoshta.in@mouritech.com
