We're Hiring: Senior Salesforce QA – Omni Studio Expert

Hyderabad, Chennai, Bangalore, Pune, Noida, Gurgaon, or New Delhi.

We're looking to onboard someone immediately or within 30 days — shorter notice periods are highly preferred!

Join our healthcare-focused Salesforce team as a Senior QA with hands-on Omni Studio experience.

7+ yrs QA (5+ yrs in Salesforce) Expertise in Omni Studio

Referrals are welcome — let's build something impactful together!

Apply now: sudheer.satya@citiustech.com

We're Hiring: Salesforce Omni Studio QA Engineer

Wilco Source | A CitiusTech Company

Are you passionate about quality, precision, and the power of Salesforce innovation? We're looking for a Salesforce Omni Studio QA Engineer to join our dynamic team at one of our India-based delivery centers—Hyderabad, Chennai, Bangalore, Pune, Noida, Gurgaon, or New Delhi.

Why Wilco Source?

At Wilco Source, we don't just build solutions—we build a meaningful impact across healthcare and life sciences. If you thrive in fast-paced environments, believe in delivering excellence, and are ready to test solutions that change lives, we'd love to meet you.

Must-Have Skills

Strong experience in Manual Testing (Automation experience is a plus!)

Hands-on expertise with Salesforce Health Cloud

Proven experience in Salesforce Omni Studio

Salesforce Administrator Certification is required

Excellent problem-solving skills and a meticulous eye for detail

Who Should Apply?

We're especially excited to connect with immediate joiners or candidates with up to 30 days' notice.

Interested or Know Someone Who Is?

Send your resume to <u>saranapriya.sankar@citiustech.com</u> or reach out to us directly on LinkedIn.

Is your career stuck in "buffering" mode? Time for an upgrade! #

At <u>DataOrb</u>, we're not just building software; we're building meaningful customer connections through innovative technology. If you're a talented tech professional ready to tackle exciting challenges, collaborate with super-smart people, and actually enjoy your Monday mornings , then this is for you!

We offer a place where your contributions truly matter, your growth is actively encouraged, and where we believe a healthy dose of humor makes every workday better.

Ready to press play on your next big career move? We're actively seeking passionate individuals across hashtag#Ahmedabad, hashtag#Pune, and hashtag#Hyderabad for these roles:

hashtag#QA Engineer (Data Quality/ Automation) | Exp: 3-7 years hashtag#Engineering Manager QA | Exp: 12+ Years

Apply today and let's build something amazing together! <u>www.dataorb.ai/careers</u>

We are seeking a Manual Tester – Tolling Industry Experience Must

Hyderabad - Work from Office - 100% onsite

Full Time

Shift Timing — 3pm to 12am

Required skills for Manual Tester:

SQL (Data Warehouse/ETL)
Violation Flow
Transaction Flow
Inventory
Back office

**Tolling Domain Experience is a must

Manual Tester – Tolling Industry Experience Preferred

We are seeking a skilled Manual Tester to ensure the quality and reliability of our software applications through thorough manual testing.

In this role, you will design and execute test cases, identify and track defects, and collaborate closely with development and product teams to resolve issues.

Your experience in the tolling industry will be especially valuable as you contribute to innovative, high-impact projects.

Key Responsibilities:

- Design, document, and maintain comprehensive test plans, test cases, and test scripts based on project requirements and specifications.
- Execute manual tests, report bugs, and verify defect fixes.
- Collaborate with developers, product managers, and stakeholders to clarify requirements and ensure complete test coverage.
- Perform regression testing to confirm that new changes do not adversely affect existing functionality.
- Conduct exploratory testing to identify hidden defects and enhance application quality.
- Maintain and update test documentation and test environments as needed.
- Contribute to test planning, reviews, and team meetings by offering insights and feedback.
- Adhere to established quality assurance standards and company processes.

Requirements

Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related discipline.
- 6+ years of hands-on experience in manual testing, with a strong grasp of the Software Development Life Cycle (SDLC).
- Prior experience in the tolling industry is highly desirable.
- Expertise in writing detailed test cases and test plans.
- Strong analytical thinking, attention to detail, and problem-solving skills.
- Excellent verbal and written communication skills, with the ability to work effectively in cross-functional teams.
- Familiarity with test management and defect tracking tools is a plus.
