QA Lead Gurgaon
Job Title: QA Lead Automation & Manual Testing (WebdriverIO, JavaScript, TypeScript)
Location: Bangalore, Hyderabad, Pune & Gurgaon Experience: 10 Years Job Type: Full-Time
Job Summary:
We are looking for a highly skilled and hands-on QA Lead with deep expertise in
WebdriverIO, Automation Testing, and Manual Testing using JavaScript and TypeScript. The
ideal candidate will lead QA efforts across projects, mentor team members, and ensure
product quality across all stages of development.
Key Responsibilities:
> Lead the QA team in planning, designing, and executing test strategies (both automation
and manual).
> Build and maintain test automation frameworks using WebdriverIO, JavaScript, and
TypeScript. > Ensure thorough testing of web applications across different browsers and
devices.

> Identify test requirements and track quality assurance metrics (e.g., defect densities and open defect counts).
> Collaborate with cross-functional teams (Developers, Product Owners, DevOps) to define quality standards.
> Drive continuous improvement in testing strategies and processes. > Review and analyze system specifications and identify areas of risk.
> Prepare detailed test reports and dashboards for leadership visibility.
Required Skills & Experience:
> 8+ years of QA experience with a minimum of 2+ years in a QA Lead role.
> Strong hands-on experience with WebdriverIO for automation testing.
> Proficiency in JavaScript and TypeScript.
> Solid understanding of both Manual and Automation testing practices.
> Experience in CI/CD integration for test automation pipelines.
> Familiarity with API testing tools like Postman or REST Assured is a plus.
> Strong knowledge of Agile/Scrum methodologies.
> Excellent communication, leadership, and mentoring skills.
