We're Hiring!!!
Agribridge India LLP is looking for a Software Mobile Application Tester to join our team.

Job Title: QA Tester (Mobile Application)
Job Classification: Full-Time
Experience Level: 2-3 Years
Preference: Male only

Mandatory Requirement:
* Must be willing to travel as and when required (Telangana & Andhra Pradesh)
* Location – Hyderabad only (Work from office)

Job Description:
We are looking for a Software Mobile Application Tester for our product in the agriculture domain. We are seeking a talented Automation Mobile Testerwith a minimum of 2 years of experience to join our dynamic team. In this role, you will be responsible for designing, developing, and executing automated tests for mobile applications across various platforms. You will collaborate closely with software developers and other stakeholders to ensure high-quality mobile applications that meet our clients' needs.

Responsibilities:
Develop and implement automated test scripts for mobile applications using Selenium, Appium, or similar tools.
Create and execute test plans and test cases based on product requirements and technical specifications.
Identify, record, and document bugs thoroughly using issue tracking software.
Work with cross-functional teams to ensure quality throughout the software development lifecycle.
Perform regression testing to validate new releases and updates.
Stay up-to-date with new testing tools and test strategies.

Requirements:
Bachelor's degree in Computer Science, Engineering, or related field (or equivalent work experience).
Minimum of 2 yearsof experience as an Automation Tester or similar role focused on mobile applications.
Strong proficiency in automated testing tools such as Selenium, Appium etc
Solid understanding of mobile application development processes and agile methodologies.
Experience with version control systems (e.g., Git) and CI/CD pipelines.
Excellent analytical and problem-solving skills.
Strong communication skills and ability to work effectively in a team environment.

Preferred Qualifications:
Experience with performance and load testing of mobile applications.
Knowledge of scripting languages (e.g., Python, JavaScript) for test automation.

Interested candidates are invited to submit their resume to **resume@agribridge.in**
==============

🚀 We're Hiring: ServiceNow QA/Tester
📍 Location: Offshore (Preferred: Bangalore or Hyderabad)
🧠 Experience: 5–8 Years
💼 Type: Full-Time | FTE with one of our End Customers
⏳ Notice Period: Immediate to 15 Days

Are you a seasoned QA professional with a passion for ensuring high-quality ServiceNow implementations? We're looking for a ServiceNow QA/Tester to join our growing team. You'll be responsible for leading testing efforts across ServiceNow CSM modules, ensuring robust, compliant, and high-performing solutions.

🔧 Key Responsibilities:
Lead and execute QA testing for ServiceNow CSM projects using Agile methodology.
Create and maintain test plans, test cases, and test scripts across CSM, Portals, and the ServiceNow platform.
Coordinate with business analysts and developers to ensure comprehensive test coverage.
Execute manual and automated tests, including ATF; document and track defects to resolution.
Mentor junior testers and enforce QA best practices.
Participate in requirement/design reviews and sprint ceremonies.
Report test status, quality metrics, and assessments to stakeholders.
Continuously enhance QA processes and stay updated on platform features and trends.

✅ Required Qualifications:
Bachelor's in Computer Science, IT, or related field.
5–8 years in QA, with 3+ years in ServiceNow testing.
Strong understanding of ServiceNow architecture and workflows.
Hands-on experience with Selenium, ATF, and defect tracking tools (JIRA, ServiceNow).
Experience in Agile/Scrum environments.
Strong analytical and communication skills.

Preferred Certifications: ServiceNow Certified System Administrator, Certified Implementation Specialist.
🌟 Desired Skills:
Expertise in ATF, API testing, integration validation
Familiarity with ITIL processes and ServiceNow's CSM modules.
Strong documentation, leadership, and mentoring skills.
Passion for quality, automation, and continuous improvement.

📌 Why Join Us?
Work as an FTE with one of our prestigious end customers
Be part of mission-critical ServiceNow implementations

Shared by **Job Curator** - Join us on Telegram: https://t.me/testingexperiencedopenings

Collaborative, growth-driven work culture
Access to the latest in ServiceNow technologies and tools

🚀 We're Hiring: QA Automation Engineer (2 Years Experience)
📍 Location: Hyderabad (Onsite) | 💼 Full-Time

Are you passionate about building reliable, automated test systems? We're looking for a QA Automation Engineer with approximately 2 years of experience to join our growing team!

🧠 What You'll Bring:
✅ Hands-on experience with automation frameworks like Selenium, Cypress, or similar
✅ Ability to write and maintain automated test scripts
✅ Familiarity with test management and bug tracking tools
✅ Basic understanding of CI/CD pipelines (a plus!)
✅ Strong analytical and problem-solving skills

🎯 What You'll Do:
🔷 Collaborate with developers and QA to identify test scenarios
🔷 Design and execute automated tests
🔷 Maintain and enhance automation frameworks
🔷 Ensure quality across releases through continuous testing
🔷 Work with DevOps to support automation in CI/CD

🌟 Nice to Have:
Exposure to API or performance testing tools like Postman or JMeter
Experience working in Agile/Scrum teams

📩 Interested?
 Send your resume to **Careers@logisofttechinc.com** with subject: "QA Automation Engineer - [Your Name]"

Shared by **Job Curator** - Join us on Telegram: https://t.me/testingexperiencedopenings

==================
🚀 We're Hiring! | QA Automation Engineer (2+ Years Experience)
📍 Location: Hyderabad (Onsite) | 💼 Full-Time

Are you passionate about creating seamless, automated testing solutions that ensure software quality and performance? We're looking for a talented QA Automation Engineer with around 2 years of hands-on experience to join our growing team!

🔍 What We're Looking For:
✅ Strong experience with automation frameworks (Selenium, Cypress, or similar)
✅ Proficiency in writing and maintaining automated test scripts
✅ Familiarity with test management & bug tracking tools
✅ Basic understanding of CI/CD pipelines (bonus!)
✅ Solid analytical and problem-solving skills

🎯 Your Role Will Include:
🔷 Collaborating with developers and QA teams to define test scenarios
🔷 Designing and executing robust automated test cases
🔷 Maintaining and improving existing automation frameworks
🔷 Supporting continuous testing across all releases
🔷 Working with DevOps for CI/CD automation integration

🌟 Bonus Skills (Nice to Have):
• Experience with API testing (Postman) or performance testing (JMeter)
• Exposure to Agile/Scrum environments

📩 Ready to Apply?
Send your updated resume to **sunil.kumar@logisofttechinc.com**
Subject Line: QA Automation Engineer – [Your Name]

==================
🚀 Contract-to-Hire Tech Talent | July–August 2025

🤖 Automation & Mobile:
Test Automation (Java + Selenium + BDD) | 4+ yrs | Pune / Blr / Chennai / Hyd
Android (Kotlin/Java) & iOS (Swift) Developers | 1–4 yrs | Bengaluru

📩 Let's connect: **deepshikha.m@innomaxsol.com**
==================
Are you a visionary **#ERP_Testing_Leader** ready to drive innovation and own a business unit? Join **TestingXperts** as **#Enterprise_Applications_Testing_Practice_Head** — an entrepreneurial role where you'll lead strategy, delivery, GTM, and growth of a full-fledged **#ERP_QA_Practice** across platforms like **#SAP**+S/4HANA, **#Oracle**, **#MicrosoftDynamics** 365, **#Salesforce**, and more.

Location: Chandigarh/ Noida/ Hyderabad

Shared by **Job Curator** - Join us on Telegram: https://t.me/testingexperiencedopenings

Experience: 15+ Years

✅ Define and execute practice vision, roadmap, and GTM strategy
✅ Drive revenue generation in collaboration with Sales & Presales
✅ Lead ERP testing (functional, regression, UAT, automation) across Finance, HCM, SCM, CRM
✅ Spearhead SAP S/4HANA upgrade testing initiatives
✅ Build and mentor a high-performance ERP QA team
✅ Lead innovation in test automation, CI/CD, and AI/ML integration
✅ Represent TestingXperts through blogs, whitepapers, and webinars.
✅ Deep hands-on with SAP, Oracle, Dynamics 365, NetSuite, Salesforce
✅ Proficiency in tools: Tosca, UiPath, Selenium, Katalon, UFT, HP ALM
✅ Proven GTM, client interfacing, and solutioning capabilities
✅ Strong delivery, stakeholder, and team management skills

👉 If this role excites you, drop your resume at **aarti.sharma@testingxperts.com** or DM me. Let's Talk!

🚀 We're Hiring: Data Tester
Location: Hyderabad
Job Type: Full-Time
Years of experience: 5-8 years

We are looking for a skilled Data Tester to validate data accuracy and integrity across data
warehouses, data integrations, and the curated business-ready layer.

Key Responsibilities:
· Test the data warehouse and ensure accurate data integration across various data sources.
· Validate the Business-Ready dataset (BRD), ensuring data is curated correctly for business
use.
·Develop and execute test cases to ensure data consistency and integrity in ETL/ELT
processes.
· Test data models and verify that data flows seamlessly through the data warehouse to the
analytical layer.

General

· Perform end-to-end testing for data integrations, ensuring compliance with business rules and transformation logic.
· Conduct performance testing to ensure the scalability and efficiency of data pipelines.
· Automate data validation and regression tests using relevant tools and frameworks.
· Document and report test results, ensuring transparency and accountability.

Required Skills:
· Strong experience in data warehouse testing, validating ETL/ELT pipelines and data models.
· Hands-on experience with testing tools and frameworks for data quality and integration.
· Knowledge of SQL for querying and validating data in GBQ or other cloud-based platforms.
· Strong attention to detail and analytical skills for identifying and resolving data issues.
· Excellent collaboration skills to work with data engineers, analysts, and business teams.

Preferred Skills:
· Familiarity with Airflow for pipeline orchestration and Python for automating test cases.
· Experience with metadata management and data governance processes.
