Internship Opportunity: **QA Engineer**
(**Manual** & **Automation Tester**)

Location: Pune (Hybrid)
 Company: IQSYS Technology Pvt. Ltd. | **www**.**iqsys**.**ai**
Experience: 0-1 Year
 Department: Quality Assurance / Software Testing

 About Us:
IQSYS Technology Pvt. **Ltd**. is a dynamic
health-tech startup focused on building innovative software solutions
for the healthcare industry. Our core offerings include CRM systems
for pharma companies, ERP solutions, mobile applications, and AI/ML
tools designed to transform healthcare and pharmaceutical business
operations.

Job Summary:
We are seeking a detail-oriented and experienced QA Engineer with
strong proficiency in both manual and automation testing. You will be
responsible for ensuring the quality of web and/or mobile applications
by designing test plans, writing and executing test cases, and
building automated test scripts to improve test efficiency and
coverage.

Key Responsibilities:
 Understand and analyze requirements, technical specifications, and
user stories.
Design, develop, and execute manual test cases for functional,
integration, regression, and user acceptance testing.
Create and maintain automation test scripts using tools like
Selenium, TestNG, JUnit, Cypress, or similar.
Perform end-to-end testing across web, API, or mobile platforms.
Identify, record, and track bugs using tools like JIRA, Bugzilla, or similar.
Collaborate closely with developers, product owners, and DevOps
teams for early bug detection and resolution.
Develop and maintain test plans, test data, and test environments.
Participate in Agile/Scrum meetings and provide QA input in sprint
planning and retrospectives.
Report testing progress, quality metrics, and suggest improvements.

Required Skills and Qualifications:
 Bachelor's degree in Computer Science, Information Technology, or

General

related field.
 0-1 years of experience in software testing (manual + automation).
Strong knowledge of QA methodologies, SDLC, and STLC.
Hands-on experience with one or more test automation tools:
Selenium, Cypress, Playwright, Appium, Postman.
Proficiency in scripting languages such as Java, Python, or JavaScript.
Experience testing REST APIs using tools like Postman or REST Assured.
Familiarity with version control tools like Git.
Understanding of CI/CD pipelines (Jenkins, GitLab CI, etc.) is a plus.
Strong analytical and problem-solving skills.

Good to Have:
 ISTQB certification or equivalent.
Experience with performance testing tools like JMeter or LoadRunner.
Exposure to cloud platforms (AWS, Azure, GCP).
Experience testing mobile applications (iOS/Android).

To Apply:
Send your updated resume with a short cover note to: **hr@iqsys.ai**
