PROFESSIONAL SUMMARY

Detail-oriented QA Engineer with 8 years of IT experience (5+ in QA) across OTT and eCommerce domains. Skilled in Manual, Automation, and API Testing with a strong command of Selenium WebDriver, Java, TestNG, and Postman. Proven ability to integrate test suites into CI/CD pipelines (Jenkins, GitHub Actions) and collaborate effectively in Agile/ Scrum environments. Known for leading defect triage, delivering quality releases, and providing user-centric feedback.

TECHNICAL SKILLS

- **Testing Types:** Manual Testing, Automation, Functional, Regression, API Testing, UI Testing, Mobile Testing, E2E Testing
- **Testing Tools:** Selenium WebDriver, Postman, JIRA, Charles Proxy, BrowserStack, Android Studio
- **Languages:** Java, SQL
- **Frameworks:** TestNG
- **CI/CD & Version Control:** Jenkins, GitHub Actions
- **Methodologies:** Agile, Scrum, Sprint Planning, Confluence
- **Other Skills:** Defect Triage, Log Analysis, Test Documentation, Stakeholder Demos, KT Sessions

---

PROFESSIONAL EXPERIENCE
Tata Consultancy Services (TCS)
Senior QA Engineer
Oct 2017 – Present

- Designed and implemented end-to-end test strategies for web and mobile-based applications.
- Automated regression test cases using Selenium WebDriver and Java; integrated into Jenkins pipelines.
- Reduced test cycle time by 40% by introducing early automation and parallel execution.
- Conducted API testing using Postman, validating JSON responses and backend workflows.
- Validated database entries using SQL queries to ensure data integrity after UI and API transactions.
- Collaborated with developers, BAs, and product owners in Agile ceremonies and sprint planning.
- Documented test cases, led defect triage meetings, and contributed to QA best practices.

KEY PROJECTS

Government e-Marketplace (GeM) – *eCommerce Web Testing*

- Performed functional, UI, and regression testing of Payment and Vendor modules.
- Used SQL queries to verify order details, payment records, and vendor data across multiple databases.
- Validated APIs through Postman and ensured data integrity across systems.
- Reported high-impact bugs in JIRA and collaborated with developers for resolution.

Sunbelt Rentals – *Web & Mobile Testing*

- Executed cross-browser and cross-platform compatibility testing across desktop, mobile, and tablet devices using BrowserStack.
- Automated key scenarios using Selenium and TestNG for efficient and repeatable test execution.
- Applied SQL checks to validate booking details and ensure consistency between UI and backend data.
- Ensured responsive and consistent performance across different screen sizes and browsers.

SonyLiv OTT – *Android & Tablet App Testing*

- Tested major modules: Login, Subscription, Parental Control, Sports, and Video Streaming.
- Executed manual and API tests, tracked bugs in JIRA, and contributed to release readiness.
- Conducted stakeholder demos, client meetings, and internal knowledge sharing.

EDUCATION
Bachelor of Science – Information Technology
RVS College of Arts and Science, Coimbatore | 2014 – 2017

CERTIFICATIONS

- Selenium WebDriver with Java – Udemy
- ISTQB Foundation Level – *In Progress (Target: Nov 2025)*
