Internship Opportunity: Software Testing Intern
Location: Balewadi ,Pune
Work Mode: Work from Office
Duration: 3 Months
Stipend: Based on performance

RBrickks Technology is looking for passionate, curious, and motivated Software Testing Interns who are eager to kickstart their career in the tech industry. If you have an eye for detail and a passion for quality software, we want to hear from you!

Internship Responsibilities:
Assist in the creation and execution of manual test cases.

Learn and support automation testing efforts under the guidance of senior testers.

Report bugs and track them using testing tools.

Perform regression, functional, UI, and performance testing.

Collaborate with developers and QA leads in Agile sprint cycles.

Contribute to test documentation and process improvements.

Skills & Qualifications:
Basic understanding of software testing concepts.
Familiarity with SDLC and STLC.

Knowledge of bug tracking and test management tools is a plus (e.g., JIRA, TestLink).

Exposure to testing tools like Selenium, Postman, or similar is advantageous.

Good analytical and problem-solving skills.

Ability to write clear and concise test cases.

Strong desire to learn and grow in the field of Quality Assurance.

Preferred Background:
Students pursuing a degree in Computer Science, IT, or related fields.

Recent graduates or those looking to transition into a software testing career.

What You'll Gain:
Hands-on experience in real-time projects.

Mentorship from experienced QA professionals.

Shared by **Job Curator** - Join us on Telegram: https://t.me/testingexperiencedopenings

Exposure to Agile methodology and industry-standard tools.

Certificate of Completion.

Potential for full-time employment based on performance.

Exciting Opportunity for Senior QA Engineer

Job Title: Senior QA Engineer

Location: Pune
Work Mode: Hybrid
Experience: 6+ years
Rate: Market standard

Job Description:

We are seeking an experienced Senior QA Engineer to join our team! As a Senior QA
Engineer, you will be responsible for developing and executing test scripts in automation,
designing and customizing automation frameworks, and collaborating with cross-functional
teams to ensure high-quality software delivery.

#Apply : If interested, send your resume to Aishu@hr-hyre.com or 9902968612

Key Responsibilities:

1. Develop and execute test scripts in automation using Rest Assured framework
2. Design and customize automation frameworks using Keyword/Testdata Driven, Hybrid
approaches
3. Analyze requirements, write, and validate functional test cases prior to automation
4. Perform manual testing, web services testing using Rest Assured, Postman, and SOAP UI
5. Conduct DB testing and Unix batch job testing
6. Work with CI/CD tools like GitHub, Jenkins, and Maven
7. Collaborate with development teams to identify and resolve defects
8. Develop and maintain test automation frameworks

Required Skills:

1. 4-7 years of hands-on experience in automation testing using Selenium, TestNG,
Cucumber, and Rest Assured
2. Strong programming knowledge of Java and OOPS concepts
3. Experience in web services testing using Rest Assured, Postman, and SOAP UI
4. Good experience in DB testing and Unix batch job testing
5. Knowledge of Maven, Jenkins, and Continuous Integration
6. Familiarity with CI/CD tools like GitHub, Jenkins
7. Good verbal and written communication skills

Added Advantage:

1. Knowledge of AWS DevOps Services such as CodeBuild, CodePipeline, CodeDeploy, EKS,
and Docker

Ideal Candidate:

1. Self-motivated, enthusiastic, and able to work with minimal direction
2. Able to learn quickly, collaborate, adapt, and work well with others
3. Strong team player with good communication skills

Hiring Now | Manual Tester – Healthcare Technology Project
  Location: Pune / Hybrid
  Employment Type: Full-Time | Long-Term Engagement
  Powered by: JoulesToWatts Business Solutions Pvt. Ltd.
At JoulesToWatts (J2W), we believe that quality is life-critical — especially in healthcare.
We're proud to be the talent and delivery partner for a mission-driven healthcare product
engineering project, and we're looking for skilled Manual Testers to help us ensure nothing
slips through the cracks.
This isn't just another testing job — it's your chance to contribute to a system that impacts
patient safety, clinical precision, and medical outcomes globally.
 Role: Manual Tester (Healthcare Domain)
In this role, you'll be:
Writing structured test scenarios and test cases that align with regulated healthcare systems
Performing manual testing across core and critical modules
Managing the defect lifecycle meticulously to ensure product stability
Collaborating with engineering and QA leads to align test coverage
Explaining project structure, test logic, and business impact effectively to teams
 What You Bring
5–9 years of manual testing experience, preferably in regulated domains
Solid knowledge of testing concepts, SDLC/STLC, and defect lifecycle
Hands-on experience with tools like JIRA, ALM, or similar
Excellent communication and documentation skills
Bonus: Familiarity with healthcare/medical device testing, basic SQL, or ISTQB certification
 Why This Project Matters
This role supports a global healthcare initiative designed to improve:
Clinical workflows
Patient safety
Health data reliability
 Your testing efforts will directly impact how clinicians and hospitals deliver care across
regions.
 Why J2W? | JoulesToWatts Advantage
At JoulesToWatts, we're not just matching skills to jobs — we're building careers that drive
global innovation.
 India's leading GCC consulting and transformation firm
  Trusted by 250+ Fortune 500 GCCs
  Recognized as a Great Place to Work – 2024
  5,300+ professionals deployed globally
  Supporting 8–10 Brownfield & Greenfield GCCs every quarter
  AI-first talent platforms for accelerated workforce transformation
And now, we're scaling our healthcare consulting vertical with critical hires like you.
 Know someone who fits? Or ready to take the leap yourself?
 Email your profile to r.manjunath@joulestowatts.com
