SUMMARY

UI/UX professional with 7+ years of experience designing and leading mobile-first, consumer and enterprise products across web and mobile platforms. Strong expertise in high-fidelity UI design, scalable design systems, and end-to-end UX delivery, combined with deep, hands-on use of AI-assisted design workflows to accelerate discovery, ideation, prototyping, and iteration. Experienced in managing design teams, owning quality standards, and partnering with Product and Engineering to translate business goals into visually refined, production-ready experiences. Comfortable operating as both a senior individual contributor and a design manager in fast-paced, AI-forward environments.

WORK EXPERIENCE

Product Design Lead, Grid Design Studio | Squareboat

May 2022 – Present

- Led end-to-end UI/UX design across B2C, B2B SaaS, and AI-driven products, from discovery to launch.
- Acted as design lead, partnering with Product and Engineering to define priorities, experience standards, and delivery timelines.
- Built and scaled design systems and component libraries, improving UI consistency and reducing design-dev rework by ~30%.
- Drove mobile-first UI strategy, ensuring high usability and visual consistency across web and mobile.
- Integrated AI-assisted workflows across discovery, ideation, and prototyping to accelerate concept exploration and iteration.
- Established structured design reviews and feedback loops to maintain quality under tight timelines.
- Led discovery workshops, stakeholder reviews, and executive presentations to align on problems, solutions, and success metrics.
- **Mentored and managed a multidisciplinary design team of 17+ while co-founding and scaling the Grid Design Studio initiative at Squareboat, defining brand positioning and delivering end-to-end digital ecosystems including responsive websites, mobile apps and SaaS platforms.
