### SUMMARY

---

QA Engineer with 3.5+ years of experience in Manual Testing, API Testing, Database Testing, and end-to-end quality assurance across FinTech, E-commerce, MarTech, MusicTech, and Travel domains. Skilled in STLC, SDLC, Regression, Smoke, Sanity, Functional, Integration, UAT, and Cross-Browser Testing with hands-on experience in REST API testing using Postman and Swagger, SQL/NoSQL database validation, Jira-based defect lifecycle management, test case design, test strategy, and Agile/Scrum methodology. Experienced in leading QA efforts, collaborating with clients and developers, gathering requirements through client calls, and ensuring smooth, high-quality project delivery.

### WORK EXPERIENCE

---

#### Associate QA Engineer, Squareboat Solutions Pvt. Ltd.

08/2025 – Present  
Gurugram, India

- Designed and executed comprehensive test strategies covering Functional, Regression, Smoke, Sanity, Integration, UAT, and UI Testing across web and mobile applications, ensuring high-quality, on-time product releases.
- Created, maintained, and executed 300+ test cases, test scenarios, and bug reports mapped to business requirements, achieving thorough test coverage across all modules.
- Performed REST API Testing using Postman and Swagger — validated request/response payloads, HTTP status codes, authentication flows, data accuracy, and endpoint behavior across environments.
- Managed full defect lifecycle using Taiga and Clear(internal tool) — from discovery, documentation, triage, and developer coordination to closure and regression verification.
- Contributed to QA across Travel (Anvayins), E-commerce (Orikam healthcare), Recruitment(ATS), Human Resource Management (Navigator) and some internal products.
- Worked throughout STLC and SDLC using Agile and Scrum methodologies, participating in sprint planning, daily standups, backlog grooming, and retrospectives.

#### Software Test Engineer, LDT Technology Pvt. Ltd.

10/2022 – 05/2025  
Zirakpur, India

- Led end-to-end QA efforts across multiple release cycles — owned test planning, test case design, execution, defect reporting, and regression sign-off for each production release.
- Gathered and analysed business requirements through direct client calls and cross-functional discussions, translating them into detailed test scenarios and acceptance criteria.
- Performed REST API Testing using Postman and Swagger — validated API contracts, request/response structures, data accuracy, error handling, and HTTP status codes.
- Executed backend data validation using SQL queries in DBeaver and verified NoSQL data entries in MongoDB and Studio3T, ensuring data consistency and integrity.
- Analysed application logs and crash reports using AWS CloudWatch and Android Studio for faster defect identification and root-cause analysis.
- Contributed to QA across FinTech (NOWNOW), Travel (ZAPS, Joyus), MusicTech (SyncMama), Martech/Social(Expociety) and some internal products.
- Managed defect tracking and sprint coordination using Jira and Asana, maintaining traceability between requirements, test cases, and defects.
- Guided junior QA team members on test case design standards, defect documentation best practices, and Agile testing processes.

### EDUCATION

---

#### Master Of Computer Application, Lovely Professional University

2023 – 2025

#### Bachelor's Of Education, Kurukshetra University

2020 – 2022

#### Bachelor's Of Science (N.M.), Kurukshetra University

2015 – 2019

## SKILLS

---

### Manual Testing

Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Cross Browser Testing, UAT, Integration Testing, UI Testing, Black-Box Testing, End-to-End Testing, Test Case Design, Defect Reporting, Release Validation, Defect Lifecycle Management, SDLC, STLC, Root Cause Analysis

### Database Testing

SQL (MySQL, DBeaver), NoSQL (MongoDB, Studio3T), Data Validation, Data Integrity Checks, Backend Data Verification

### Tools & Platforms

Jira, Postman, Swagger, Android Studio, DBeaver, MongoDB, Studio3T, AWS CloudWatch, Jenkins, Chrome DevTools, Google Sheets, Google Docs, MS Excel, Slack, Trello, Asana, Taiga, Skype

### Soft Skills

Team Work, Time Management, Critical Thinking, Leadership, Client Communication, Mentoring

### API Testing

REST API Validation, Request/Response Validation, HTTP Status Code Verification, Authentication Flow Testing, Pre-script and Post-script, Endpoint Testing, Postman, Swagger

### Test Management

Test Planning, Test Strategy, Test Case Design, Defect Lifecycle Management, Test Reporting, Release Validation, Requirement Analysis, Acceptance Criteria Definition

### Domains

E-commerce, FinTech, Travel/On-demand, HR Management, MusicTech, MarTech, Recruitment

## PROJECTS

---

### **NOWNOW**, *Domain (FinTech)*

- FinTech platform for Nigeria and Angola supporting mobile recharge, bill payments, wallet management, and physical/virtual card management. Performed end-to-end functional, regression, and API testing; validated REST APIs via Postman and conducted backend data verification using SQL.

### **ZAPS Travel**, *Domain (Travel / On-Demand)*

- Online travel platform for booking flights, hotels, and travel packages across India. Executed comprehensive functional, integration, and cross-browser testing including third-party API validation and payment workflow verification.

### **Joyus Trips**, *Domain (Travel / On-Demand)*

- Bilingual online travel booking platform providing flight, hotel, travel package, and offer booking services. Tested multilingual UI flows, booking workflows, and REST API integrations.

### **SyncMama**, *Domain (MusicTech / Audio Licensing)*

- AI-powered music licensing platform with 400K+ tracks and royalty-included licenses. Validated smart search, voiceover features, licensing workflows, and creator-facing tools through functional, integration, and UAT testing.

### **Navigator**, *Domain (Human Resource Management)*

- Web-based employee management platform handling attendance, leave requirements, holidays, and project details with role-based access (Admin, Manager, Employee). Verified backend data integrity using SQL queries.

### **ATS**, *Domain (Recruitment Management)*

- Application Tracking System for managing candidate referrals, job applications, interview scheduling, and hiring processes with automated email updates. Performed end-to-end regression and UAT testing before each release.

### **Anvayins**, *Domain (Travel)*

- Travel and cultural exploration platform for curated travel experiences, events, and personalised consultations. Tested responsive web flows, booking features, and third-party service integrations.

### **Orikam Healthcare**, *Domain (E-Commerce)*

- Dental e-commerce platform (web and mobile) covering product management, orders, inventory, payments (Razorpay), memberships, and customer operations. Performed functional, regression, and API testing across modules.
