

Chirag Khanduja

Senior QA Engineer | SDET | Manual & Automation Testing

chiragkhanduja786@gmail.com · +91-9034226868 · Rewari, Haryana · LinkedIn · github.com/chiragK786

PROFILE

ISTQB-certified QA Engineer with **4+ years of experience** in manual and automated testing for web and mobile applications. Proficient in **Selenium (Java & Python), Postman, Cypress, Playwright (Python), Robot Framework** and CI/CD integration via Jenkins. Skilled in API testing, regression testing, automation framework design, test planning, and mentoring junior QA engineers in **Agile/Scrum** environments.

SKILLS

- **Testing Types:** Regression, UAT, Smoke, Sanity, Integration, Functional, Exploratory
- **Tools & Frameworks:** Selenium (Java, Python), Cypress, Playwright (Python), Robot Framework, Postman (JavaScript)
- **Performance Testing:** JMeter, Locust (Python)
- **CI/CD & Frameworks:** Jenkins, Page Object Model (POM), Data-Driven Testing
- **Test Management:** Jira, TestRail, Zephyr, Asana, ClickUp, Taiga
- **Reporting Tools:** Pytest, TestNG, Newman
- **Platforms & SDLC:** Windows, macOS, Android, iOS | Agile (Scrum), Waterfall

PROFESSIONAL EXPERIENCE

Sr. QA Engineer 04/2025 – Present | Gurugram, Haryana
Squareboat Solution Private Limited

Leadership & QA Strategy

- Spearheaded **end-to-end QA initiatives** across multiple Agile/Scrum teams, collaborating with Product Owners, Developers, and Stakeholders to ensure timely delivery within sprint cycles.
- Championed **shift-left testing approach**, embedding QA processes early in the development lifecycle — significantly reducing cost of bug fixes.
- Actively participated in **sprint planning, backlog grooming, and retrospectives**, contributing QA perspectives to improve overall team delivery and release readiness.
- **Mentored junior QA engineers** in test case design, exploratory techniques, defect reporting, and structured bug lifecycle management.

Key Projects

1. Orikam (HealthTech / Dental Industry)

- Conducted **manual and exploratory testing** for a dental practice management platform covering clinical workflows, patient records, appointment scheduling, and billing modules.
- Performed **API testing using Postman** validating patient data endpoints, device integrations, and reporting services — positive, negative, and edge case scenarios.
- Managed test cases and defects in **Jira and TestRail/Zephyr**, ensuring full requirement-to-execution traceability.

2. Hudle Vision AI (AI / Sports Tech — Venue Booking & Game Highlights)

- Executed **manual and exploratory testing** for an AI-powered sports platform offering real-time game stats, highlight generation, and venue booking.
- Validated **AI-driven features** including automated highlight creation, player performance stats, and game event detection — testing accuracy, latency, and edge cases.
- Tested **venue booking end-to-end** covering slot availability, payments, confirmations, and cancellation flows across web and mobile.

3. Anvayins (Travel Tech / Trip Planning & Itinerary Management)

- Performed **manual and exploratory testing** for a travel planning platform covering trip discovery, itinerary builder, booking flows, and user profile management.
- Conducted **API testing using Postman** for travel data endpoints and third-party integrations (maps, hotels, activities).
- Applied exploratory testing to uncover edge cases in **multi-destination trip planning**, date conflicts, and real-time availability updates.

4. Piper (AI / Communication SaaS)

- Led **manual and exploratory QA** for a conversational AI platform — testing chat flows, bot accuracy, NLP edge cases, and third-party integrations.
- Validated **webhook events, message delivery, and conversation state management** through structured API testing in Postman.

5. Trading with Vivek (FinTech / Stock Market Education & Trading)

- Validated **real-time data accuracy** for trading charts, price alerts, and signal notifications — ensuring zero latency during market hours.

- Tested **payment gateway and broker APIs using Postman**, covering auth flows, error handling, timeout scenarios, and refund logic.

QA Engineer 04/2023 – 04/2025 | Gurugram, India

Squareboat Solution Private Limited

Testing Expertise & Automation

- Automated API testing using **Postman (JavaScript)**, designing test suites that reduced manual testing time by **50%** and improved release velocity.
- Developed and maintained **Selenium WebDriver automation scripts** for end-to-end UI testing covering cross-browser compatibility and regression scenarios.
- Built structured automation frameworks using **Robot Framework** with keyword-driven testing for scalable, maintainable regression suites.
- Integrated automated tests into **CI/CD pipelines via Jenkins**, enabling continuous quality validation throughout the software development lifecycle.

Key Projects

- **Woobly Genie** — Designed and executed regression suites and functional test cases; tracked critical defects to ensure product stability pre-release.
- **ATS (Applicant Tracking System)** — Led API automation using Postman + JavaScript; created 100+ scripts covering CRUD, auth, and edge cases — reducing manual QA by **50%**.
- **Harbor** — Performed rigorous front-end and back-end testing; validated API contracts, UI responsiveness, and data integrity across user workflows.
- **BrokerBuk & Navigator** — Conducted mobile and admin panel testing; validated user management, role-based access, and reporting modules.
- **Acadru, Qyubic, Crewmate** — Automated critical business flows using Java & Selenium; developed reusable components aligned with Agile sprint cycles.
- **Happy Shop, GrayPorter (UK eCommerce), Tealbox, Hudle** — Executed full lifecycle testing: requirement analysis, UI validation, API testing, and customer journey assessments.

QA Engineer 04/2022 – 01/2023 | Gurugram, India

ConnectedH

- Conducted **manual and automated testing** for ConnectedH CRM and Android applications (Phlebo & Runner).
- Created **Postman collections and regression test suites** to validate healthcare SaaS solutions, ensuring data accuracy and workflow reliability.

AWARDS

Excellence Award — Squareboat Solution Pvt. Ltd. *Jan 2025*

Top Performer Award — Squareboat Solution Pvt. Ltd. *Jul 2024*

Employee of the Month — Squareboat Solutions Pvt. Ltd. *Feb 2024*

Rockstar Rookie — Squareboat Solutions Pvt. Ltd. *Jun 2023*

CERTIFICATIONS

ISTQB Foundation Level (2023) · Postman API Automation (2023) · Selenium with Java (2022) · Cypress – Modern Automation (2023) · Selenium with Python (2025) · Playwright with Python (2025) · AI/ML Testing (2025) · Generative AI & AI Agents for Testing (2024) · MasterClass: Jira & Agile (2022)

EDUCATION

Master of Business Administration (MBA)

Guru Jambheshwar University, Hisar, India · Jul 2019 – Feb 2022

Bachelor of Technology (B.Tech)

RPS College of Engineering and Technology, Mohindergarh, India · Aug 2014 – Jul 2018
