

Chirag Khanduja

Senior QA Engineer | SDET | Manual & Automation Testing

✉ chiragkhanduja786@gmail.com ☎ +91-9034226868 📍 Gurugram, Haryana 🌐 github.com/chiragK786

PROFILE

ISTQB-certified QA Engineer with **over 4 years of experience** in both manual and automated testing for web and mobile applications. Proficient in **Selenium (Java & Python), Postman, Cypress, Playwright (Python), Robot Framework, and CI/CD integration utilizing Jenkins**. Adept in **Agile/Scrum** development settings with a strong emphasis on **API testing, regression, and the design of automation frameworks**. Experienced in test planning, execution, mentoring junior team members, and enhancing **QA processes**.

SKILLS

- **Testing Types:** Regression, UAT, Smoke, Sanity, Integration, Unit Testing
- **Tools & Frameworks:** Selenium (Java, Python), Cypress, Robot Framework, Postman (JavaScript), JMeter, Locust, Playwright (Python)
- **Testing Management Tool:** Jira, Asana, Taiga, ClickUp
- **API Testing & Performance Testing:** Postman, JMeter, Locust (Python)
- **SDLC Models:** Agile (Scrum), Waterfall
- **Platforms:** Windows, macOS, Android, iOS
- **Automation Framework & CI/CD Tool:** Page Object Model, Data Driven Testing, Jenkins
- **Reporting Tool:** Pytest, TestNG, Newman

PROFESSIONAL EXPERIENCE

Sr. QA Engineer

04/2025 – Present | Gurugram, Haryana, India

Squareboat Solution Private Limited
Leadership & QA Strategy

- Spearheaded end-to-end QA initiatives across multiple **Agile/Scrum teams**, collaborating with Product Owners, Developers, and Stakeholders to ensure timely delivery of high-quality features within sprint cycles.
- Championed a **shift-left testing approach**, embedding QA processes early in the development lifecycle to identify defects at the requirement and design stage — reducing cost of bug fixes significantly.
- Actively participated in **sprint planning, backlog grooming, and retrospectives**, contributing QA perspectives to improve overall team delivery and release readiness.

Key Projects :

1. Orikam (HealthTech / Dental Industry)

- Conducted **manual and exploratory testing** for a dental practice management platform, covering clinical workflows, patient record management, appointment scheduling, and billing modules.
- Created and maintained detailed **test cases and test plans in TestRail/Zephyr**, ensuring full traceability from requirements to test execution.
- Performed **API testing using Postman** to validate patient data endpoints, device integrations, and reporting services — covering positive, negative, and edge case scenarios.
- Logged, tracked, and followed up on defects using **Jira**, maintaining clear defect lifecycle documentation and ensuring timely resolution with development teams.
- Conducted **exploratory testing sessions** to uncover hidden usability and data integrity issues not covered by scripted test cases.

2. Hudle Vision AI (AI / Sports Tech — Venue Booking & Game Highlights)

- Executed **manual and exploratory testing** for an AI-powered sports platform offering real-time game stats, highlight generation, and venue booking capabilities.
- Validated **AI-driven features** including automated sports highlight creation, player performance stats, and game event detection — testing accuracy, latency, and edge case behavior.
- Tested **venue booking workflows** end-to-end covering slot availability, booking confirmation, payment flows, and cancellation logic across web and mobile.
- Performed **API testing via Postman** on sports data feeds, AI processing endpoints, and venue management services — ensuring correct data flow and error handling.
- Maintained test coverage and defect tracking in **Jira and Zephyr**, delivering clear execution reports and release sign-offs to stakeholders.

3. Anvayins (Travel Tech / Trip Planning & Itinerary Management)

- Performed **manual and exploratory testing** for a travel planning and itinerary creation platform, covering trip discovery, destination search, itinerary builder, booking flows, and user profile management.
- Designed **test cases and test plans in TestRail/Zephyr** mapping all user journey scenarios — from trip creation to final itinerary export and sharing.
- Conducted **API testing using Postman** for travel data endpoints, third-party integrations (maps, hotels, activities), and itinerary save/retrieve workflows.
- Applied **exploratory testing** to uncover edge cases in multi-destination trip planning, date conflict handling, and real-time availability updates.
- Tracked and managed all defects in **Jira**, ensuring sprint-wise resolution and clear communication between QA, product, and development teams.

4. Piper (AI / Communication SaaS)

- Led **manual and exploratory QA** for a conversational AI and communication automation platform, testing chat flows, bot response accuracy, and third-party integrations.
- Designed comprehensive **test cases in Zephyr/TestRail** covering multi-channel communication scenarios including email, chat, and voice integration workflows.
- Validated **webhook events, message delivery, and conversation state management** through structured API testing in Postman.
- Tracked all defects and test execution progress in **Jira**, maintaining transparent communication with product and engineering teams across Agile sprints.
- Used **session-based exploratory testing** to identify edge cases in NLP response handling and integration failure recovery flows.

5. Trading with Vivek (FinTech / Stock Market Education & Trading)

- Performed **manual and exploratory testing** for a stock market education and trading signals platform, covering live market data, subscription management, and user portfolio features.

- Validated **real-time data accuracy** for trading charts, price alerts, and signal notifications — ensuring reliability during time-sensitive market hours.
- Tested **payment gateway and broker integration APIs using Postman**, covering authentication flows, error handling, timeout scenarios, and refund logic.
- Maintained structured **test cases and bug reports in Jira and TestRail**, ensuring full sprint-wise test coverage and release sign-off documentation.
- Conducted **exploratory testing** on subscription tier gating, discount logic, and access control flows to uncover billing and permission edge cases.

QA Engineer

04/2023 – 04/2025 | Gurugram, India

Squareboat Solution Private Limited

- Created **Selenium and Robot Framework scripts** for user interface and **regression testing**. **Testing Expertise & Automation**.
- Automated API testing workflows using **Postman (JavaScript)**, designing and executing comprehensive test suites that reduced manual testing time by **50%**, improving release velocity and team efficiency.
- Developed and maintained **Selenium WebDriver** automation scripts for end-to-end UI testing, covering cross-browser compatibility and regression scenarios.
- Built structured test automation frameworks using **Robot Framework**, enabling keyword-driven testing for scalable, maintainable regression suites.
- Collaborated with development teams to integrate automated tests into **CI/CD pipelines**, ensuring continuous quality validation throughout the software development lifecycle.

- Key Projects
- Woobly Genie** — Designed and executed comprehensive regression suites and functional test cases across multiple modules; identified and tracked critical defects to ensure product stability pre-release.
 - ATS (Applicant Tracking System)** — Led API test automation initiative using Postman and JavaScript; created 100+ automated test scripts covering CRUD operations, authentication flows, and edge cases, reducing manual QA effort by **50%**.
 - Harbor** — Performed rigorous front-end and back-end testing to ensure seamless UX; validated API contracts, UI responsiveness, and data integrity across user workflows.
 - BrokerBuk & Navigator** — Conducted mobile app and admin panel testing with robust automation scripts; validated core features including user management, role-based access, and reporting modules.
 - Acadru, Qyubic, Crewmate** — Automated critical business flows using **Java & Selenium**; developed reusable test components and maintained test documentation aligned with Agile sprint cycles.
 - Happy Shop, GrayPorter (UK eCommerce), Tealbox, Hudle** — Executed full software testing lifecycle including requirement analysis, test planning, UI validation, API testing, and customer journey assessments for end-to-end quality assurance. Automated API testing with **Postman (JavaScript)**, cutting **manual testing** time by 50%.

QA Engineer

04/2022 – 01/2023 | Gurugram, India

ConnectedH

- Conducted both manual and automated testing for **ConnectedH CRM and Android applications (Phlebo & Runner)**.
- Created Postman collections and regression test** suites to validate healthcare SaaS solutions

AWARDS

- Excellence Award

01/12/2024

Squareboat Solution Pvt. Ltd.

This accolade is presented by **Squareboat Solution Pvt Ltd** to their employees who have demonstrated exceptional performance over the past year.
- Top Performer Award

01/06/2024

Squareboat Solution Pvt. Ltd.

This accolade is presented by **Squareboat Solution Pvt Ltd** to their employees who have performed exceptionally in the previous quarter.
- Employee of the Month

01/01/2024

Squareboat Solutions Pvt. Ltd.

This accolade is presented by **Squareboat Solution Pvt Ltd** to their employees who have performed exceptionally well in the previous month.
- Rockstar Rookie

01/05/2023

Squareboat Solutions Pvt. Ltd.

This award is presented by **Squareboat Solution Pvt Ltd** to their employee who performs exceptionally during his Prohibition period.

CERTIFICATES

Introduction to Machine Learning Models (AI) Testing 2025	Playwright with Python 2025
Selenium with Python 2025	Learn Generative AI & AI Agents for Software Testing 2024
ISTQB (Foundational Level) 2023	Postman API Automation Testing 2023
Software Testing :Effective Test Case Writing & Formatting 2023	Cypress-Modern Automation from Scratch 2023
Selenium with Java 2022	MasterClass Software Testing with Jira & Agile 2022

EDUCATION

- Masters of Business Administration

07/2019 – 02/2022 | Hisar, India

Guru Jambheshwar University
- Btech

08/2014 – 07/2018 | Mohindergarh, India

RPS College of Engineering and Technology
